

Taking multi-purpose strength training to new heights.

CYBEXercise

CYBEX Jungle Gym

It looks serious because it is serious.

One glance at the CYBEX Jungle Gym, and you know our engineers were serious about taking modular, multi-purpose strength training equipment to a whole new level. This professional quality system has the look, feel and performance you expect from a company that's serious about fitness.

Our new Jungle Gym is more than an ideal complement to the CYBEX equipment your members already know and trust. It's an essential part of any well-balanced facility committed to offering members a well-rounded workout.

The right fit for your fitness club.

You can configure this multi-station performer to the needs of your facility — no matter how challenging the environment. From our Cable Crossover to a four-stack with the Attached Cable Crossover to two four-stacks connected by a Cable Crossover, the CYBEX Jungle Gym is the right fit-for your facility and everyone in it. Like your members, it belongs in your club.

CYBEX Quality – in a Jungle Gym.

This fitness club staple is made from cold rolled solid steel and engineered to our high standards. So you can expect the rugged reliability and low-maintenance that have become CYBEX trademarks.

The CYBEX Jungle Gym is the missing link for clubs who want to offer members the complete line of high performance CYBEX strength and cardio equipment.

What's your Jungle Gym?

Use our modular building blocks to create a professional quality multi-gym to accommodate everyone one from serious strength trainers, to members who are just getting started on the road to fitness.

QUAD TOWER 17000

The core Jungle Gym accepts any two of the following at opposite sides:

- Low Row 17030
- Dual Handle Low Row 17040
- Lat Pull 17070
- Dual Handle Lat Pull 17080

The remaining two sides will accept:

- Hi-Lo 17050
- Triceps Pushdown 17060
- Adjustable Cable Column 17090
- Attached Cable Crossover 17120
- Embedded Cable Crossover 17130

A. Low Row 17030

- Seat cushion is ergonomically positioned 17-inches from the ground.
- Seat is placed at a 10-degree angle to allow users clear access to the footplates.
- Pulley position allows for an optimal path of motion of the handle for rows.

B. Dual Handle Low Row 17040

- Dual handles for independent movement, and delivers a 2:1 lifting ratio when used independently.
- Diverging pulley alignment for natural movement.
- Seat cushion is ergonomically positioned 17-inches from the ground.
- Seat is placed at a 10-degree angle to allow users clear access to the footplates.
- Pulley position allows for an optimal path of motion of the handle for rows.

C. Hi-Lo 17050

- Dual cable outlets make this an excellent multi-purpose station for movements like arm curls and triceps pushdowns.
- The 2:1 lifting ratio provides for low take-off resistance and controlled inertia.

D. Dual Handle Lat Pull 17080

- The forward-aligned pulley is carefully located to encourage correct form for the lat pulldown movement.
- Dual handles for independent movement, and delivers a 2:1 lifting ratio when used independently.
- Diverging pulley alignment for natural movement.

E. Lat Pull 17070

- The forward-aligned pulley is carefully located to encourage correct form for the lat pulldown movement.
- Adjustable thigh pad provides stabilization for a wide variety of user heights.

F. Tricep Pushdown 17060

- Overhead pulley location allows for a greater variety in body position.

G. Adjustable Cable Column 17090

- Adjustment tube has 22-positions, located 3" apart.
- The 2:1 lifting ratio provides for decreased inertia.
- Includes user-side weight shield.

Embedded Cable Crossover 17130

Used when a Cable Crossover is desired as part of a "dual quad" Jungle Gym. It includes two adjustable cable columns and a connecting tube with multiple pull-up and chin-up handles.

Free Standing Cable Crossover 17110

Includes two Adjustable Cable Columns with towers and stabilization, as well as a connecting tube with multiple pull-up and chin-up handles.

Attached Cable Crossover 17120 (not pictured)

This Cable Crossover attaches to one side of the Quad Tower and extends outward to a free-standing end attached by a connecting tube with multiple pull-up and chin-up handles.
